

Journal Fonts

True Type Fonts

Updated 4/11/2014

This is a list of fonts that may be too thin for a good cut, but when small work very nicely for journaling with the Pen Tool or for use with the Engraving Tool, Embossing Tool and in some cases, the Distress Tool. When the fonts are larger, some will cut.

We have added links to the fonts if you want to download and use them. Most of the fonts are free for personal use, others contain a Terms of Use, the ReadMe files that are part of some of the downloads will give you the specifics for that font.

<i>Across the Road</i>	http://www.dafont.com/across-the-road.font
